RACEREADY™ F+I

SEED TREATMENT

PUT PLANTS ON THE FAST TRACK TO HIGHER YIELDS

RACEREADY™ F+I seed treatment gives your soybeans unsurpassed protection against harmful early-season disease and insects. With a best-in-class fungicide and insecticide package, combined with a polymer proven to reduce dust-off and improve plantability, RACEREADY F+I delivers a winning performance at a value that just makes sense.

With three different fungicides and an insecticide, RACEREADY F+I gives you broad spectrum disease and insect protection.

PRODUCT BENEFITS

- **Protection against early-season disease and insects**
- **Best-in-class fungicide and insecticide package**
- **Polymer proven to reduce dust-off and improve plantability**

AGRONOMIC BENEFITS

Fludioxonil: a non-systemic fungicide with control of Rhizoctonia damping off, rhizoctonia seed rot, pythium, phytophthora and fusarium

T-methyl: a systemic fungicide with control against rhizoctonia damping off and phomopsis

Mefenoxam: a systemic fungicide used to control pythium damping off and phytophthora

Imidacloprid: a systemic insecticide proven to effectively protect beans from a broad range of harmful insects

SeedWorx: a polymer coating designed for uniform coverage and reducing dust off, excellent seed flow, shiny quality finish with high opacity, and WOW factor appearance.

ACTIVE INGREDIENTS PER CWT

FUNGICIDE

Fludioxonil* 4#	0.08 oz
T-methyl* 4.5#	0.28 oz
Mefenoxam* 4.1#	0.23 oz

INSECTICIDE

Imidacloprid* 5#	1.60 oz

PLANTING EASE

SeedWorx	0.60 oz
Colorant	0.70 oz

**EPA registered active ingredients*

USE RATE & APPLICATION INSTRUCTIONS

RACEREADY F+I is a pre-mix designed for use in commercial liquid seed treatment systems. The pre-mix contains the fungicide, insecticide SeedWorx and a colorant.

The application rate for the pre-mix is 2.12 oz per 50 lb of soybeans. Simply connect the keg to the slurry tank and set system to apply product at the suggested use rate.

PRODUCT AVAILABILITY

- 15-gallon keg
