

# MEMO

## FOR INDIVIDUAL/SINGLE ROW UNIT APPLICATION

The purpose of this memo is to revise use instructions for HOPPER THROTTLE™ CORN and REVLIN™ HOPPER THROTTLE™ CORN. The current label is incorrect, as it relates to individual/single row unit application. **The scoop provided treats two units of corn (160,000 seeds).** Please follow these instructions and disregard the instructions provided on the label.

### DIRECTIONS FOR USE

#### INDIVIDUAL/SINGLE ROW UNITS APPLICATION

1. (Applicable for REVLIN™ HOPPER THROTTLE™ CORN co-pack:) Open one 6.25 oz (175 g) pouch of REVLIN™ HOPPER THROTTLE™ CORN and pour into one of the included 4.6 lb (2.1 kg) jugs of HOPPER THROTTLE™ CORN base 80/20 seed lubricant.
2. Cap the jug and shake to blend until the mix is thoroughly combined, approximately 15-30 seconds.
3. Using the provided scoop, sprinkle **one scoop** of product into the individual/single row unit **per two units of corn (160K seed)** and stir gently for uniform coverage.

**AGGRESSIVELY SHAKE JUG BEFORE SCOOPING.  
DO NOT OVERFILL OR PACK SCOOP.**

Product will keep for 7 days after mixing. Keep combined product tightly sealed in provided jug when not in use. After 7 days, dispose of any remaining combined product and packaging in accordance with local/regional national/international regulations.

**Please visit [MeristemAg.com](http://MeristemAg.com) for more information.**
