

**CROPFUSE®**  
**COC**  
CROP OIL CONCENTRATE

**PUT YOUR SPRAY PROGRAM  
ON THE FAST TRACK TO  
HIGHER PERFORMANCE**

**YOUR ALL-IN-ONE  
APPROVED TANK  
MIX PARTNER**

**PRINCIPAL FUNCTIONING AGENTS**

Proprietary blend of alkylpolyoxethylene, glycol derivatives,  
humectant and formulation aids.....100%

All ingredients are approved for use under 40 CFR 180

• **Enlist™ Approved Adjuvant\***

CROPFUSE® NIS is a crop oil concentrate blend with paraffinic oil and premium quality surfactant.

**PRODUCT BENEFITS**

- Improves spray solution coverage and penetration
- Increases spray solution dwell time on leaf surface
- Increases the activity of herbicides and enhances performance
- Compatible with UAN and AMS, even in cold water

**PRODUCT AVAILABILITY**

- 2 x 2.5 gallon case
- 250 gallon tote

**Weight:** 7.2 lb/gal

**Specific Gravity:** 0.86

**DIRECTIONS FOR USE**

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using CROPFUSE COC, the applicator or crops advisor must have experience with the pesticide combination, including CROPFUSE COC, or must have conducted a phytotoxicity test. Do not use this product in a manner inconsistent with labeling.

CROPFUSE COC increases the activity of many pesticides; therefore, care must be taken when treating sensitive crops during periods of drought stress, high temperatures or high humidity.

**RECOMMENDED USE RATE**

**Ground:** Apply 1 to 2<sup>1</sup> pints per acre.

**Aerial:** Apply at 1–2%<sup>2</sup> v/v in 1–5 gallons of water per acre.

<sup>1</sup>Use the higher rate when weeds are under environmental stress, at the maximum labeled size for control or apply 1.0% v/v (1 gallon of CROPFUSE COC per 100 gallons of spray solution) per pesticide label recommendations. <sup>2</sup>Use higher concentrations for lower water volumes.

\*Approval pending. \*\*Always check manufacturer's website for approved tank mix partners.
