**YOUR ALL-IN-ONE
APPROVED TANK
MIX PARTNER**

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of alkylpoloxyethylene, glycol derivatives,
humectant and formulation aids.....100%

All ingredients are approved for use under 40 CFR 180

- **Enlist One[®] Approved Adjuvant***
- **Enlist Duo[®] Approved Adjuvant***

CROPFUSE[®] NIS is a multi-function spray adjuvant for the enhancement of spreading of spray droplets and increased coverage of the intended target. CROPFUSE NIS may be applied with insecticides, fungicides, herbicides, PGR's and nutrients at the label use rates or rates recommended on the pesticide label.

PRODUCT BENEFITS

- Enhances spread and coverage
- Increases uptake time
- Excellent plant safety
- Wide range of uses

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers may cause phytotoxicity to plant foliage. Prior to using CROPFUSE NIS the applicator should have experience with the pesticide combination, including CROPFUSE NIS, or should conduct a test to determine plant safety.

RECOMMENDED USE RATE

Use 0.5 - 4 pints of CROPFUSE NIS per 100 gallons of spray solution.

PRODUCT AVAILABILITY

- 2 x 2.5 gallon case
- 250 gallon tote

Weight: 9.96 lb/gal

Specific Gravity: 1.19
