

OPTIMIZE YOUR SPRAY TANK

| PRODUCT | | AVERAGE USE RATE |
|---|---|---------------------|
|  | AQUADRAFT® DICAMBA ALL-IN-ONE AQUADRAFT DICAMBA ALL-IN-ONE is a volatility and drift reduction adjuvant designed for use in dicamba tolerant cropping systems. | 20 oz/acre |
|  | AQUADRAFT® EXTREME AQUADRAFT EXTREME is a blend of water conditioning agent (ammonium sulfate), surfactants, drift reduction agents and humectants. AQUADRAFT EXTREME contains antifoaming agent to minimize foaming. | 20 oz/acre |
|  | AQUADRAFT® PREMIUM AQUADRAFT PREMIUM is an Enlist™ approved nonionic surfactant and 3.4 lb/gal AMS premix. Can be used in place of ordinary surfactants, dry AMS or other AMS replacement products. | 20 oz/acre |
|  | TRUTRACK® FUNGICIDE PASS TRUTRACK FUNGICIDE PASS adjuvant helps optimize droplet adhesion, which reduces bounce and increases droplet spreading for improved contact, coverage and canopy penetration. | 8 oz/acre |
|  | TRUTRACK® HD TRUTRACK HD is Meristem's premier drift reduction and deposition agent for use with herbicides, insecticide and fungicides. Enlist™ approved adjuvant. | 3 oz/acre |
|  | CROPFUSE® COC CROPFUSE COC improves spray solution coverage and penetration, increases the activity of herbicides and enhances performance and is compatible with UAN and AMS, even in cold water. | 20 oz/acre |
|  | CROPFUSE® HS-MSO CROPFUSE HS-MSO is a methylated seed oil and surfactant formulation for increased pesticide uptake and effectiveness at 50% of the use rate of ordinary methylated seed oils and crop oil. | 20 oz/acre |
|  | CROPFUSE® NIS CROPFUSE NIS, an economical, 90% active, low-foaming, non-ionic activator adjuvant, enhances crop protection performance by improving spray solution coverage and penetration of target leaf surfaces. | 20 oz/acre |

PERFORMANCE In Every Pass

| PRODUCT | | AVERAGE USE RATE |
|---|--|---|
|  | EXCAVATOR® powered by MICROBILIZE™ EXCAVATOR is specifically designed to break down crop residue in the field, improving planter performance and releasing valuable nutrients to feed the crop. EXCAVATOR is powered by MICROBILIZE Technology, Meristem's innovative, patent-pending biological delivery system designed to safeguard the vigor and vitality of your microbes. | 12.8 oz/acre |
|  | MAINTAIN™ ELITE MAINTAIN ELITE by utilizes an improved formulation to extend nitrogen availability and uptake in addition to reducing nitrogen loss. MAINTAIN ELITE provides more calcium and enhanced polymer technology. It is intended for use as an additive to anhydrous ammonia and liquid fertilizer applied below ground. <i>THE ONLY MICROBE FRIENDLY NITROGEN MANAGEMENT SYSTEM</i> | Anhydrous Ammonia: 6 oz/50 units N up to max of 24 oz/acre Liquid Fertilizer: 2 qts/ton UAN Liquid Manure: 24-32 oz/acre |
|  | N-GEAR® DUAL ACTION N-GEAR DUAL ACTION gives you flexibility of both above and below ground nitrogen protection. N-GEAR DUAL ACTION is specifically formulated for use in urea and UAN scenarios. <i>THE ONLY MICROBE FRIENDLY NITROGEN MANAGEMENT SYSTEM</i> | UREA (46-0-0): 2-3qts/ton urea UAN Solutions (28-32%): 1.5 qt/ton total solution Liquid Manure: 13.5-18 oz/acre |
|  | FUEL-LINE™ FUEL-LINE is a fertilizer biological enhancement specifically formulated for impregnation on dry fertilizer blends. It contains micronutrients and enzymes that help growers get more out of their applied P and K fertilizers. | 2 qt/ton (dry product) |

| BUILD STRONG, HEALTHY PLANTS FAST |  REVLINE® HOPPER THROTTLE™ CORN PLANTER BOX TREATMENT | CORN: 50 units |
| |  REVLINE® HOPPER THROTTLE™ COTTON PLANTER BOX TREATMENT | COTTON: 20 units |
| |  REVLINE® HOPPER THROTTLE™ DRY BEAN PLANTER BOX TREATMENT | DRY BEAN: 40 units |
| |  REVLINE® HOPPER THROTTLE™ PEANUT PLANTER BOX TREATMENT | PEANUT: 40 acres |
| |  REVLINE® HOPPER THROTTLE™ RICE PLANTER BOX TREATMENT | RICE: 40 units |
| |  REVLINE® HOPPER THROTTLE™ SOYBEAN PLANTER BOX TREATMENT | SOYBEANS: 40 units |
| |  REVLINE® HOPPER THROTTLE™ SUGARBEET PLANTER BOX TREATMENT | SUGARBEET: 10 boxes |
| | | *one provided scoop per single row unit |
| |  REVLINE® HOPPER THROTTLE™ CORN PLANTER BOX TREATMENT | CORN: 50 units |
| |  REVLINE® HOPPER THROTTLE™ SOYBEAN PLANTER BOX TREATMENT | SOYBEANS: 40 units |
| REVLINE® HOPPER THROTTLE™ powered by ETHER™ For Corn, Soybeans Same products as mentioned above, but additionally powered by a BIO-CAPSULE of ETHER™ Enzyme Technology, a lipase and mannanase enzyme combo that jumpstarts microbial activity for long-term crop benefits through enzyme protection. | | CORN: 50 units |
|  UPSHIFT® C powered by ETHER™ UPSHIFT C powered by ETHER Enzyme Technology combines two enzymes specifically identified to increase phosphate availability, increase nutrient and water availability, boosting plant growth, while maximizing microbial activity. | | SOYBEANS: 40 units |
| | | *one provided scoop per single row unit |
|  REVLINE® 4.0 PLANT GROWTH REGULATOR | | 2.5 lbs/acre |
|  RACEREADY™ COMPLETE RACEREADY COMPLETE offers a proprietary triple-stack inoculant, a proprietary liquid Trichoderma bio-logical for better root development and starch-based extender/polymers for easier planting. ASK ABOUT THE CO-PACK WITH REVLINE HOPPER THROTTLE SOYBEANS | | 3 oz/acre |
|  RACEREADY™ F+I RACEREADY F+I contains three different fungicides and an insecticide, giving you broad spectrum disease and insect protection. | | 2.90 oz/140k seed |
|  RACEREADY™ F RACEREADY F has three different fungicides, giving you defense against a broad spectrum of diseases. | | 2.12 oz/140k seed |
|  RACEREADY™ INOCULANT RACEREADY INOCULANT contains a triple-stack Rhizobia strain package for top-yield responses | | 1.325 oz/140k seed |
|  RACEREADY™ WHEAT STZ powered by ETHER™ RACEREADY WHEAT powered by ETHER contains a proprietary enzyme technology that enhances seed development to get the crop off to a fast and healthy start. | | 0.775 oz/140k seed |
|  RACEREADY™ WHEAT RACEREADY WHEAT seed treatment shields your crop against harmful early-season disease and insects. With a best-in-class fungicide and insecticide package, RACEREADY WHEAT delivers maximum protection through harvest. | | 2.0 oz/cwt or 1.0 oz per 50 lb of wheat seed |
| | | 3.35 oz per 50 lb of wheat seed |

|--|--|---------------------|
|  REVLINE® EARLY-SEASON PGR REVLINE EARLY-SEASON contains two plant growth regulators found in nature that stimulate seeding and plant growth and improve root development. It also contains vitamins that aid transplanting. | | 2 oz/acre |
|  HARVESTSHIELD™ COMPLETE HARVESTSHIELD COMPLETE is a first-pass solution specifically formulated to protect and reduce yield loss of crops under abiotic stress conditions. This product combines foliar nutrition, amino acids and stress mitigators all in one jug. | | 1 qt/acre |
|  REVLINE® LATE-SEASON PGR REVLINE LATE SEASON is a fortified cytokinin designed to increase pollination and support photosynthesis during fruit or grain fill. The unique combination produces more flowering/fruting site, and more importantly increases the plant's net capture of solar energy to help drive sugar production. | | 12.8 oz/acre |
|  HOMESTRETCH® NKB-S HOMESTRETCH NKB-S is a 2-0-15 formulation, specifically formulated with a boost of potassium, boron, and sulfur. It is ideal for in-season nutrient applications on row crops and is an excellent tank mix partner. | | 1 qt/acre |
|  HOMESTRETCH® HOMESTRETCH is a foliar applied formulation of 4-0-0 with a micronutrient package. It is ideal for in-season nutrient applications on row crops and can be used as a tank mix partner. | | 1 qt/acre |
|  HOMESTRETCH® ULTRA HOMESTRETCH ULTRA is a foliar-applied formulation of 5-0-0 with an advanced formulation of micronutrients, ideal for in-season nutrient applications on row crops and is an excellent tank mix partner. | | 1 qt/acre |
|  HOMESTRETCH® B HOMESTRETCH B is designed for maximum nutrient mobility and performance, with one of the most efficient and user friendly forms of boron available. | | 1 qt/acre |
|  HOMESTRETCH® B-MO HOMESTRETCH B-Mo is designed for maximum nutrient mobility and performance, and is one of the most efficient and user friendly forms of boron available. | | 1 qt/acre |
|  HOMESTRETCH® 10% BORON HOMESTRETCH 10% BORON is an effective, readily available source of boron for soil and foliar applications to field, row, vegetable, fruit, tree, and vine crops. | | 1 qt/acre |
|  HOMESTRETCH® Mn 6% HOMESTRETCH MN 6% is a fully chelated solution recommended for the prevention and/or correction of manganese deficiency in all crops when used as a part of a balanced fertility program. | | 1 qt/acre |
|  HOMESTRETCH® ZINC 9% HOMESTRETCH ZINC 9% offers high quality, fully chelated EDTA micronutrients, ensuring that the nutrients remain available to the plant in a wide range of tank mixes, as well as pH and soil conditions. | | 1 qt/acre |
|  HOMESTRETCH® SULFUR 17 HOMESTRETCH SULFUR 17 is specifically formulated for foliar delivery of sulfur. Sulfur is important for chlorophyl formation, nodulation, enzyme activation, and S-containing amino acids. | | 1 qt/acre |
