

TRUTRACK® FUNGICIDE PASS

DEPOSITION AID & DRIFT REDUCTION AGENT

PUT YOUR SPRAY PROGRAM ON THE FAST
TRACK TO HIGHER PERFORMANCE

- Enlist One® Approved Adjuvant
- Enlist Duo® Approved Adjuvant

TRUTRACK® FUNGICIDE PASS adjuvant helps optimize droplet adhesion, which reduces bounce and increases droplet spreading for improved contact, coverage and canopy penetration. These features enhance overall agronomic performance, providing more fungicide and insecticide where it is most needed.

TRUTRACK FUNGICIDE PASS contains an NPE-free surfactant and is designed to enhance fungicide and insecticide applications. It may be used with herbicides and other crop protection products.

PRODUCT BENEFITS

- Functionally similar to the industry-leading drift and deposition agent
- Increased coverage lower in the crop canopy, where diseases and insects are more prevalent
- Increased droplet retention and slower evaporation, allowing maximum uptake of systemic fungicides
- Reduces spray drift and evaporation of pesticides
- Improves spray deposition

PRINCIPAL FUNCTIONING AGENTS

Modified soybean oil, ethoxylated soybean oil,
and proprietary surfactant blend 100%

Components exempt from the requirement of a tolerance in 40 CFR 180.

Surfactant Content: 24%

DIRECTIONS FOR USE

Add TRUTRACK FUNGICIDE PASS after pesticides or other adjuvants are added but prior to complete filling of the spray tank.

May be used through direct, in-line injection.

Do not mix TRUTRACK FUNGICIDE PASS with other adjuvants in an induction system or container when all the products are undiluted. Once mixed in water, all products are compatible.

RECOMMENDED USE RATE

Ground application: 6-10 oz per acre

Low-volume (aerial or drone) application: 0.3% - 0.5% v/v

PRODUCT DETAILS

Available in 2x2.5 gallon jugs (36 cases per pallet) or 250-gallon totes.

Density: 7.4 lb/gal

Storage: Store above 32°F
