

HOMESTRETCH[®] SULFUR 17 NUTRITIONAL

PRODUCT DESCRIPTION

HOMESTRETCH[®] SULFUR 17 is specifically formulated for foliar delivery of sulfur. Sulfur is important for chlorophyll formation, nodulation, enzyme activation, and S-containing amino acids.

RATE RECOMMENDATIONS

Foliar Application: Apply 0.5 - 4 quarts per acre per application throughout the growing season. More frequent applications at 1 - 2 pints per acre may be needed to correct deficiencies once they occur.

Soil Application: 2 - 4 quarts per acre banded either as a stand alone or in combination with liquid NPK starter fertilizers at planting or as a side-dress during the season.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and general health. For best results, follow soil/tissue test recommendation.

DIRECTIONS FOR USE

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

GUARANTEED ANALYSIS

Nitrogen (N).....	8.00%
7.86% Ammoniacal Nitrogen	
0.14% Urea Nitrogen	
Sulfur (S).....	17.00%

Derived from urea and ammonium thiosulfate.
