

UNLOCK EARLY-SEASON FERTILITY

EARLY-SEASON PLANT GROWTH REGULATOR

WHAT IS REVLINE® EARLY SEASON?

REVLINE EARLY-SEASON provides two essential growth-promoting plant hormones for optimal crop development and yield. These two EPA-registered plant growth regulators (PGRs) are found in nature and stimulate seeding and plant growth, improving root development.

REVLINE EARLY-SEASON contains indole-butyric acid for fast, vigorous root growth and cytokinin for optimal vegetative and reproductive development.

WHY FARMERS USE THE PRODUCT

- Boosts root growth and plant vigor
- Improves plant health and physiology
- Increases yield potential and grain quality
- Optimizes the genetic potential of your crop

"You can get that crop off to a great start to provide the hormonal balance that plant needs for fast, even germination. REVLINE® EARLY-SEASON is a product that has two hormone components in it and is used in the early foliar stages."

*-Dale Hanke, Coastal Sales Leader,
Corteva Biologicals*

"The cost per acre is not very high so every pass you make, you might as well put something on it to help the plant grow more than to just kill a weed. By the time you factor it in and make a couple bushels, you basically get your money back"

-Ben Shaeffer, Morrall, OH

COMPLEMENTARY MERISTEM PRODUCTS

STRESS-MITIGATING ADVANCED NUTRITIONAL

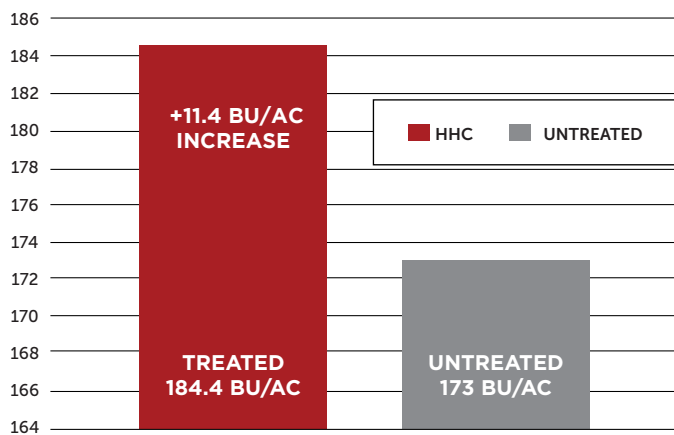

WHAT IS HARVESTSHIELD™ COMPLETE?

HARVESTSHIELD COMPLETE is a first post-pass solution to reducing yield loss of crops under abiotic stress conditions. Farmers invest a lot to optimize genetic in-season potential, and **HARVESTSHIELD COMPLETE** is the perfect combination of nutrients and stress mitigation technology to help farmers protect their investment by:

- Optimizing plant nutrition
- Minimizing abiotic stress
- Supporting plant growth promotion
- Assists in herbicide metabolism

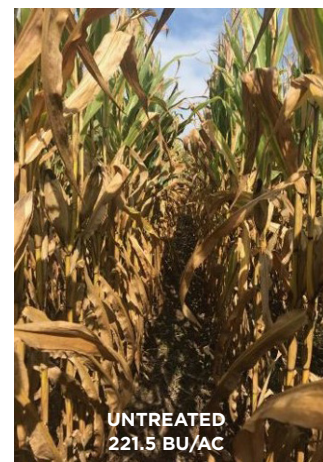

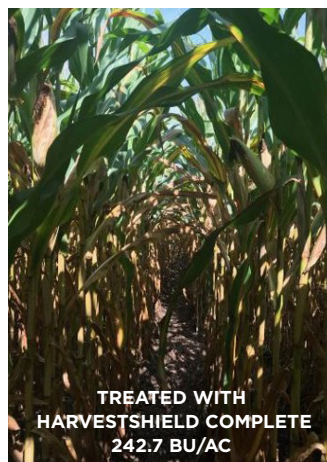

HARVESTSHIELD COMPLETE CORN YIELD RESULTS FROM MISSOURI

Input Cost	\$8.00/acre
Yield Increase	+11.4 bushel
Grain Income	\$4.81/bushel
Per Acre Income Increase	\$54.83/acre
Per Acre Revenue Increase	\$46.83/acre

"With HARVESTSHIELD COMPLETE, I am getting a high bushel yield at an amazing price that I am making my money back on. This product gives crops a boost of energy that results in a higher yield while it mitigates stress."

-Ben Shaeffer, Morrall, OH
