

CROPFUSE[®]
COC
 CROP OIL CONCENTRATE

**PUT YOUR SPRAY PROGRAM
 ON THE FAST TRACK TO
 HIGHER PERFORMANCE**

**YOUR ALL-IN-ONE APPROVED
 TANK MIX PARTNER**

PRINCIPAL FUNCTIONING AGENTS

Mineral Oil.....	83.0%
Secondary Alcohol Ethoxylate.....	17.0%
TOTAL.....	100.0%

Components exempt from the requirement of a tolerance in 40 CFR 180.

• **Enlist[™] Approved Adjuvant**

CROPFUSE[®] COC is a crop oil concentrate blend with paraffinic oil and premium quality surfactant.

PRODUCT BENEFITS

- Improves spray solution coverage and penetration
- Increases spray solution dwell time on leaf surface
- Increases the activity of herbicides and enhances performance
- Compatible with UAN and AMS, even in cold water

PRODUCT DETAILS

Available in 2x2.5 gallon jugs (36 cases per pallet) or 250-gallon totes.

Density: 10.2 lb/gal
Storage: Store above 32°F

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using CROPFUSE COC, the applicator or crops advisor must have experience with the pesticide combination, including CROPFUSE COC, or must have conducted a phytotoxicity test. Do not use this product in a manner inconsistent with labeling.

CROPFUSE COC increases the activity of many pesticides; therefore, care must be taken when treating sensitive crops during periods of drought stress, high temperatures or high humidity.

RECOMMENDED USE RATE

Ground: Apply 1 to 2¹ pints per acre.
Aerial: Apply at 1–2%² v/v in 1–5 gallons of water per acre.
¹Use the higher rate when weeds are under environmental stress, at the maximum labeled size for control or apply 1.0% v/v (1 gallon of CROPFUSE COC per 100 gallons of spray solution) per pesticide label recommendations. ²Use higher concentrations for lower water volumes.

*Approval pending. **Always check manufacturer's website for approved tank mix partners.
