

**GUARANTEED ANALYSIS**

Zinc (Zn) ..... 9.0%

**0-0-0***Derived from zinc EDTA.***KEEP OUT OF REACH OF CHILDREN****PRODUCT DESCRIPTION**

HOMESTRETCH® ZINC 9% is a fully chelated solution recommended for the prevention and/or correction of zinc deficiency in all crops when used as a part of a balanced fertility program.

**RATE RECOMMENDATIONS****Foliar Application**

Avoid applying this product when plants are suffering from moisture stress. If there is any doubt, apply the spray solution to a small test area of the crop or foliage to assess any undesirable effects or phytotoxicity before general application.

- **Field, Row, and Vegetable Crops:** Apply 1-2 pints per acre in a minimum of 20 gallons water.
- **Fruit, Tree and Vine Crops:** Apply 1-2 pints per acre in a minimum of 25 gallons water. For smooth skinned fruit apply 1 pint per acre in 50-100 gallons of water.
- **Aerial:** Apply 0.5-1 pint per acre in at least 10 gallons of water.

**Soil Application**

Recommended for use on all types of soils. Because this is a concentrated solution, it should be diluted before use to ensure uniform coverage. Soil applications may be made by drip, sprinkler or furrow irrigation systems or in band or broadcast fertilizer applications. For trees or individual plants, the product may be diluted as above or sprinkled directly on the soil uniformly under the plant's drip line, then watered in. NOTE: The rates given below are based on broadcast application. If broadcast rates are used for spot or banded applications, phytotoxicity may result.

- **Field, Row, and Vegetable Crops:** Apply 2-8 quarts per acre.
- **Fruit, Tree and Vine Crops:** Apply 2-10 quarts per acre or 1 to 4 Tbsp per inch of tree diameter.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and general health. For best results, follow soil/tissue test recommendation.

**DIRECTIONS FOR USE**

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up. Dispose of contents/container in accordance with local regulations.

**PRECAUTIONARY STATEMENTS**

Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling.

LIMITED WARRANTY: Meristem Crop Performance Group, LLC.
