**Job Description**

**Overview:**

Meristem® Crop Performance, Inc. helps farmers produce more bushels for less cost per bushel. Meristem is the global leader in delivering live, in-field biologicals through the patented BIO-CAPSULE™ Technology platform. Meristem significantly reduces waste and increases productivity in crop input systems through accelerated access to innovation, improved supply chain efficiency, and advanced concentrates.

The Production Associate will work in a manufacturing facility assembling components for various lid configurations for a finished planter box product.

The Production Associate will report to the Production Manager. This position is located at our Council Bluffs, IA facility..

- Ability to perform light assembly of plastic components into various lid configurations based on product specs
- Ability to follow all safety and quality regulations.
- Communicate with other associates/manager to ensure production orders are being met
- Ability to train and perform multiple jobs depending on production orders
- May be assigned other operational duties as needed by Production Manager

**Required knowledge skills and abilities:**

- Ability to pass yearly respirator testing
- Previous clean room manufacturing or light assembly experience preferred.
- Strong mathematical skills, ability to convert different units of measurements
- Must be able to lift 50 lbs. repetitively.

**Education and Experience**

- Knowledge of manufacturing equipment such as fillers, packaging equipment, labelers, etc.
- 2+ year of supervisory experience in a production environment.

Meristem is an equal opportunity employer.
