

# HOMESTRETCH® GREENCHARGE

## NUTRITIONAL

### PRODUCT DESCRIPTION

Homestretch® GreenCharge maximizes iron availability in the soil profile to prevent iron deficiencies in crops grown in soils with low levels of available iron.

Homestretch GreenCharge is ideal for soils with a history of iron chlorosis. Iron deficiencies are usually found in high calcareous soils. Additionally, cool, wet conditions early season can lead to iron deficiencies even when soil iron levels are adequate.

### RATE RECOMMENDATIONS

Rates are dependent upon crop sensitivity and potential severity of iron chlorosis.

Apply 1 pt/acre to 5 qt/acre.

For best results, concentrate Homestretch GreenCharge for in furrow applications. It can also be used during the growing season through controlled irrigation systems. When applied through an irrigation system, Homestretch GreenCharge must be injected after sand media filters.

### DIRECTIONS FOR USE

SHAKE WELL before using as some settling can occur with time. If pulling material from an ICB tote RECIRCULATE material for a couple of minutes within the tote or use air or some other method of agitation material before taking the desired amount. Clean application equipment after every use with water.

Homestretch GreenCharge may be used alone or with a carrier, such as water or fertilizer, for ease of application. Homestretch GreenCharge is compatible with many fertilizer mixes and can be applied with most NPK starter mixes, compatibility conformation with a jar test.

**WARNING:** Product contains Molybdenum. Do not apply to crops that will be grazed by ruminant animals.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of waste and residues in accordance with local authority requirements. Dispose of contents/container in accordance with local, state and federal laws and regulations.

### GUARANTEED ANALYSIS

	<b>0-0-0</b>
Iron (Fe) .....	1.90%
1.90% Chelated Iron	
Sulfur (S) .....	3.00%
3.00% Water soluble sulfur	
Cobalt (Co) .....	0.02%
Molybdenum (Mo) .....	0.025%

Derived from Iron EDDHSA, sulfone, cobalt carbonate, sodium molybdate
