

### PRODUCT DESCRIPTION

NUTRIFUEL® is a microbial package enhanced with nutritional boosting bacteria that increases the availability, solubility and mobility of nitrogen, potassium, calcium, magnesium, phosphorus and zinc during the growing season. It is designed to release tied up nutrients in the soil, drive higher yields on challenging soils and in high-yield environments where resources are limited, and drive down input costs. The BIO-CAPSULE™ Technology packaging ensures the microbes remain alive and effective at labeled rates until use.

### RATE RECOMMENDATIONS

Use 0.04 oz per acre.

### MIXING AND HANDLING INSTRUCTIONS

DO NOT ACTIVATE BIO-CAPSULE UNTIL READY TO USE.  
SHAKE JUG BETWEEN EACH USE.

Read and follow all label directions for use on package. Once ready to use, remove the safety clip and safety cap from the BIO-CAPSULE. Push down on the button atop the jug to release the biologicals into the base. Repeat with second BIO-CAPSULE. Shake aggressively to blend the contents, then remove BIO-CAPSULE to pour mixture into spray solution. Before each application, shake contents to ensure the correct volume is applied.
