

PRODUCT DESCRIPTION

Harvestshield® Evo is specifically formulated to protect and reduce yield loss of crops under abiotic stresses conditions such as drought, low or high temperature, deficient or excessive water, high salinity, heavy metals, and ultraviolet radiation.

RATE RECOMMENDATIONS

Foliar application: Apply 1 qt/acre and repeat as needed. Harvestshield Evo is more effective if applied prior to stress events or during rapid vegetative growth stages. Application may also be beneficial during early to mid-flowering growth stages.

DIRECTIONS FOR USE

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

WARNING: Product contains Boron and Molybdenum. Do not apply to Boron sensitive crops. Do not apply to crops that will be grazed by ruminant animals.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to Meristem Crop Performance Group, LLC. and giving the lot number which is found on the container or label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up and away from heat, direct sunlight and incompatible materials. Best stored in an enclosed building capable of maintaining temperature below 110°F. Follow first in, first out inventory management practices. Avoid release to the environment. Dispose of contents/container in accordance with local, state and federal laws and regulations.
