PRODUCT DESCRIPTION

Revline® Hopper Throttle® Dry Bean is an 80/20 talc, graphite, nutrient and microbial planter box delivery system for use in dry beans.

DIRECTIONS FOR USE & RATE RECOMMENDATION

DO NOT ACTIVATE BIO-CAPSULE UNTIL READY TO USE. SHAKE BETWEEN EACH USE.

Read and follow all label directions for use on package. Once ready to plant, remove the safety clips from the Bio-Capsules. Push down on the buttons atop the pail to release the biologicals into the base. Seal the pail and shake aggressively to blend the contents. Before each application, aggressively shake contents to ensure the correct volume is applied.

The combined products (1 pail) treat 40 units of dry beans.

For single-row unit planters, use the enclosed scoop to measure out blended contents. One scoop treats 1 unit dry beans.

STORAGE & DISPOSAL

Storage: Keep in a cool, dry place. Keep out of direct sunlight. Do not exceed storage in 77°F and above for an extended period of time. Do not freeze product.

Disposal: Dispose of all waste in accordance with local, state, and federal regulations.
