### DIRECTIONS FOR USE & GREEN RECOMMENDATION

#### DO NOT ACTIVATE BIO-CAPSULE UNTIL READY TO USE. SHAKE BETWEEN EACH USE.

Read and follow all label directions for use on package. Once ready to plant, remove the safety clips from the Bio-Capsules. Push down on the buttons atop the pail to release the biologicals into the base. Seal the pail and shake aggressively to blend the contents. Before each application, aggressively shake contents to ensure the correct volume is applied.

The combined products (1 pail) treat 3,000 lbs of pea or lentil seed.

For single-row unit planters, use the enclosed scoop to measure out blended contents. Use 2 scoops per acre for peas and 1 scoop per acre for lentils.
